Notes:

Would allow a member of the military between 18 and 20 years of age to obtain a permit to carry a concealed firearm. Current law requires a person to be at least 21 years of age to be eligible for a concealed carry permit. If persons between 18 and 20 years of age are risking their lives for our country then they should be eligible to acquire permits for self-defense.

Notes:

Would expand the list of places firearms are prohibited from being carried and kept to include public library property. In addition to banning firearms within the library, this prohibition would be extended to include the parking lot as well. This would encompass the onsite "book drop" stations commonly used for returning library materials.

Notes:

Would allow for ex parte emergency orders to remove your Second Amendment rights - not because of a criminal conviction or mental adjudication, but based on the third party allegations. This order lacks due process as firearms and ammunition are required to be surrendered weeks before a hearing may take place.
